

Windows 10 安裝mosquitto  
Broker

## Source

- [mosquitto-1.6.9.tar.gz](#) (319kB) (GPG signature)
- [Git source code repository](#) (github.com)

Older downloads are available at <https://mosquitto.org/files/>

## Binary Installation

The binary packages listed below are supported by the Mosquitto project. In many cases Mosquitto is also available directly from official Linux/BSD distributions.

### Windows

下載並安裝 <https://mosquitto.org/download/>

- [mosquitto-1.6.9-install-windows-x64.exe](#) (~1.4 MB) (64-bit build, Windows Vista and up, built with Visual Studio Community 2019)
- [mosquitto-1.6.9-install-windows-x32.exe](#) (~1.4 MB) (32-bit build, Windows Vista and up, built with Visual Studio Community 2019)

See also readme-windows.txt after installing.

### Mac

Mosquitto can be installed from the homebrew project. See [brew.sh](#) and then use `brew install mosquitto`

### Linux distributions with snap support

- `snap install mosquitto`

### Debian

- Mosquitto is now in Debian proper. There will be a short delay between a new release and it appearing in Debian as part of the normal Debian procedures.
- There are also Debian repositories provided by the mosquitto project, as described at <https://mosquitto.org/2013/01/mosquitto-debian-repository>

<https://slproweb.com/products/Win32OpenSSL.html>

Screenshot of the Win32/Win64 OpenSSL Installer.

### Download Win32/Win64 OpenSSL

Download Win32/Win64 OpenSSL today using the links below!

File	Type	Description
<a href="#">Win64 OpenSSL v1.1.1g Light EXE   MSI</a>	3MB Installer	Installs the most commonly used essentials of Win64 OpenSSL v1.1.1g (Recommended for users by the creators of <a href="#">OpenSSL</a> ). Only installs on 64-bit versions of Windows. Note that this is a default build of OpenSSL and is subject to local and state laws. More information can be found in the legal agreement of the installation.
<a href="#">Win64 OpenSSL v1.1.1g EXE   MSI</a>	63MB Installer	Installs Win64 OpenSSL v1.1.1g (Recommended for software developers by the creators of <a href="#">OpenSSL</a> ). Only installs on 64-bit versions of Windows. Note that this is a default build of OpenSSL and is subject to local and state laws. More information can be found in the legal agreement of the installation.
<a href="#">Win32 OpenSSL v1.1.1g Light EXE   MSI</a>	3MB Installer	Installs the most commonly used essentials of Win32 OpenSSL v1.1.1g (Only install this if you need 32-bit OpenSSL for Windows. Note that this is a default build of OpenSSL and is subject to local and state laws. More information can be found in the legal agreement of the installation.
<a href="#">Win32 OpenSSL v1.1.1g EXE   MSI</a>	54MB Installer	Installs Win32 OpenSSL v1.1.1g (Only install this if you need 32-bit OpenSSL for Windows. Note that this is a default build of OpenSSL and is subject to local and state laws. More information can be found in the legal agreement of the installation.
<a href="#">Win64 OpenSSL v1.0.2u Light</a>	3MB Installer	Installs the most commonly used essentials of Win64 OpenSSL v1.0.2u (NOT recommended for use). Only installs on 64-bit versions of Windows. Note that this is a default build of OpenSSL and is subject to local and state laws. More information can be found in the legal agreement of the installation.
<a href="#">Win64 OpenSSL v1.0.2u</a>	23MB Installer	Installs Win64 OpenSSL v1.0.2u (NOT recommended for use). Only installs on 64-bit versions of Windows. Note that this is a default build of OpenSSL and is subject to local and state laws. More information can be found in the legal agreement of the installation.
<a href="#">Win32 OpenSSL v1.0.2u Light</a>	1MB Installer	Installs the most commonly used essentials of Win32 OpenSSL v1.0.2u (NOT recommended for use. Only install this if you need 32-bit OpenSSL for Windows. Note that this is a default build of OpenSSL and is subject to local and state laws. More information can be found in the legal agreement of the installation.
<a href="#">Win32 OpenSSL v1.0.2u</a>	20MB Installer	Installs Win32 OpenSSL v1.0.2u (NOT recommended for use. Only install this if you are a software developer needing 32-bit OpenSSL for Windows. Note that this is a default build of OpenSSL and is subject to local and state laws. More information can be found in the legal agreement of the installation.

### Donate to Shining Light Productions

Shining Light Productions puts forth a lot of effort into developing Win32/Win64 OpenSSL. As such, if you find it useful, a time-saver, or helps to solve a frustrating problem, seriously consider giving a donation to continue developing this software.

Shining Light Productions uses PayPal for all donations because it is fast, easy, and secure.

A minimum \$10.00 (US) donation is recommended for individuals. Businesses integrating Win32/Win64 OpenSSL into products must pay a minimum of \$225 to help cover the cost of bandwidth. Businesses can alternatively pay smaller amounts on a regular basis (sponsorship).

Businesses: A \$25/month recurring donation will get a logo and preferred placement on this page.
